

University of West Florida

College of Professional Studies

Division of Engineering and Computer Technology

Instructional Technology, M.Ed.

Instructional Technology professionals provide critical assistance for national and international education and training initiatives in the 21st century. The M.Ed. in Instructional Technology prepares education, military, and business and industry professionals to meet the challenges of complex education and training problems. Developing innovative solutions to organizational problems and providing for just-in-time support to employees and learners permits students to develop a variety of instructional technology-related skills. With the advent of the information explosion, industry, the military and educational systems look for alternative and systematic strategies in the education and training of employees and of children. Students in this program select courses from a minimum of two specializations in addition to the program core requirements. This program is 100% online and includes the following:

Specialization Areas

- Curriculum & Technology
- Technology Leadership
- Telecommunications & Distance Learning
- Human Performance Technology

Required Core

- EDF 6218 Psychological Foundations for Education: Learning & Instruction
- EDF 6404 Educational Statistics I
- EDF 6481 Educational Research
- EDG 5332 Principles of Instructional Design & Product Development
- EME 6054 Foundations of Instructional Technology
- EME 6316C Instructional Management and Technology
- EME 6414C Web-Based Instructional Tools for Educators
- EME 6415 Designing Instructional Courseware
