

University of West Florida
College of Professional Studies
Division of Engineering and Computer Technology

Information Technology, Interdisciplinary, B.S.
Networking and Telecommunications Specialization

This program is designed for students who wish to pursue a career in the design, implementation, and maintenance of network and telecommunications systems for training and education organizations.

The interdisciplinary program includes a core foundation in the skills most commonly needed in an Information Technology career (information technology application, business and management techniques, writing skills, database systems, programming, and networking principles).

Students also take courses specific to networking and telecommunications as well as courses in one of two focus areas: Computer Web Development Technologies or Business and Communications. The capstone experience for the program is an internship or practicum in technology to provide practical experience in applying technological skills in a real-world setting.

Core Courses

Interdisciplinary Information Technology Common Core

CGS 3604 Applications of Information Technology
COP 4710 Database Systems
EME 4622 Technology Tools: Site-Based Educational Networks
GEB 3032 Business Foundations for Non-Business Majors
Choose One Writing Course:
ENC 3240 Technical Writing
ENC 3250 Professional Writing
GEB 3212 Writing For Business: Theory and Practice

Networking and Telecommunications Specialization Courses

EME 3402 Information Engineering Technology: An Overview
EME 3406 Web Environments for Learning & Information
EME 4313 Multimedia Applications for e-Learning
EME 4454 Distance Education Technologies
EME 4627 Education and Training Technology Support Systems
EME 4944 Internship/Practica in Technology
